

ADDITIONAL INSTRUCTIONS

p/n 458 - Minolta 7000 & 9000

p/n 459 - Canon T90, 620EOS

The enclosed cord will allow remote electronic shutter control of the camera. However, due to the camera manufacturer's design, the enclosed cord will work as their's does -- the automatic focus and exposure systems **WILL NOT FUNCTION**. The focus and exposure settings must be **MANUALLY** set during remote/camera installation.
