# QUANTUM QB-12 CABLE
INSTRUCTIONS

For use with QB-11 Charger/Adaptor

The QB-12 cable allows you to charge a QB-20 Battery without removing it from the Norman 200B Power Pack. The connections are shown in the diagram below:

To charge properly:
1. Push the red button on the 200B Charger. The red indicator will light.
2. Push to start the QB-11. The red indicator will go off or blink on and off.
3. Turn the 200B Power Pack ON. The battery will not charge properly unless the 200B Power Pack is turned on.
