

QUANTUM C5N TURBO 500 CABLE INSTRUCTIONS

The C5N Cable was designed for use with the National PE-5651 flash and the Quantum Turbo 500 Battery. For safety and product compatibility always follow these important instructions.

1. Do not fashion your own cables to use with the Quantum Turbo 500 Battery. If you do Quantum assumes no liability or responsibility for resultant damage or injury.
2. Always switch the Turbo 500 Battery to the off position before connecting or disconnecting a Turbo 500 Cable.
