

QUANTUM POWER MODULE BN

INSTRUCTIONS

Power Module BN was designed for use with the Nikon SB-15 flash.

For correct Power Module orientation follow the diagram on this sheet. Also, refer to the Quantum Battery Operating Instructions, section 2 under "Step-by-step procedure".

To secure, press firmly on Power Module BN until the two side clips lock into place. To release, gently lift side clips.

Thank you,
Quantum Instruments

CAUTION! The Quantum Battery Power Modules are designed for use with the Quantum Battery. To avoid damage to your flash **DO NOT USE WITH OTHER POWER PACKS.**
